CBA Highlight – Vacation

Entitlement - A frequent

question that comes up is

how the vacation

entitlement transition

functions. Please review the

following example for a

better understanding.

Example: An employee is
hired on January 25, 2013.

Vacation entitlement

increases to 15 days at 6%

after 4 years of service, i.e.

January 25, 2017. In the 2018

vacation scheduling period

(Jan. 1 to Dec. 31, 2018), the

employee will be entitled to
15 days of vacation.

Vacation pay will be

calculated as 6% of earnings

from January 1 to December

31, 2017 (Page 26 of CBA).
