

Stronger Together with USW and IAM

- Did you know the United Steelworkers union has a strategic alliance with the Machinists union (IAM)?
- Between the two unions, we represent more than 3,000 screeners working at 50 airports in Canada, including Montreal, Ottawa, Toronto and Vancouver.
- The USW supports IAM members and the IAM supports USW members. We support each other during bargaining to help screeners get the best contract possible.

CLAC Walked Away

- There is no room for CLAC's weak representation at YOW!
- When things got tough, CLAC decided to walk away. It suspended its campaign to attempt to displace the USW as the union for screeners at the Ottawa Airport.
- You are stronger with the USW because we work with other unions to help advance workers' rights.
